Aman Dhungel

FULL-STACK DEVELOPER | REACT, NEXT.JS & NODE.JS | AWS & EVENT-DRIVEN SYSTEMS

Kathmandu, Nepal | +977 9867806220 | dhungelaman2000@gmail.com
amanportfolio-bay.vercel.app | github.com/AmanDhungel | linkedin.com/in/aman-dhungel-1a4773187

PROFESSIONAL SUMMARY

Full-stack developer with 4+ years of experience building scalable web and mobile applications with React, Next.js, Node.js, and TypeScript, with a strong focus on frontend engineering, UI/UX, and performance optimization. Hands-on across AWS cloud services, event-driven architecture, REST APIs, and CI/CD pipelines, and has delivered booking, ticketing, e-commerce, and business platforms end to end. Has led a team of six developers through staging and production releases, and collaborates with designers and cross-functional teams to ship high-impact solutions aligned with business goals.

CORE COMPETENCIES

Cloud & Architecture: AWS Lambda, S3, API Gateway, ECS, IAM, SNS, event-driven architecture, system design, Docker
Full-Stack Engineering: TypeScript, JavaScript (ES6+), React, Next.js, Node.js, Express.js, Redux, Zustand, TanStack Query, React Native, Expo, HTML5, CSS3, Tailwind CSS, GSAP, WordPress
Data & Integrations: PostgreSQL, MySQL, MongoDB, Redis, Prisma ORM, GraphQL, Firebase, REST APIs, JWT authentication, Stripe
Delivery & Quality: GitHub Actions, GitLab CI, CI/CD, Git, unit testing, error tracking, rollback runbooks, staging and production deployments, code reviews, technical leadership

PROFESSIONAL EXPERIENCE

SUNYAVERSE | Remote (Australia)

Full-Stack Developer (Freelance) | Jan 2026 - Present

- Single-handedly designed and built whaustralia.com, Australia s community platform for discovering and promoting local businesses, services, and events, across both frontend and backend.
- Built a booking and scheduling system that lets businesses manage employee shifts, working days, and days off, and connects staff or independent service providers with customer bookings.
- Added event ticketing with Stripe payments and QR check-in, plus a business dashboard for bookings, sales, and ticket redemptions.
- Applied system design principles and security hardening, including Redis-backed rate limiting and CSRF/XSS protection.
- Building a cross-platform mobile app with React Native and Expo on the same backend APIs as the web application (in progress).

GURUKULHUB | Maharajgunj, Kathmandu, Nepal

Full-Stack Developer | Oct 2025 - Present

- Led a team of six developers across multiple projects, guiding delivery from development through production release.
- Implemented CI/CD pipelines and managed deployments across separate staging and live environments.
- Containerized applications with Docker, building and managing images for consistent, repeatable deployments.
- Diagnosed and resolved deployment errors, applying sound engineering practices to keep development running smoothly.

SUVAANSH GROUP

Web Developer / Marketing Manager | May 2024 - Mar 2025

- Built websites and web applications with WordPress, including bamboohomesupport.com.au and bamboonursing.com.au.

FATDOG LABS AGENCY | Guhyeshwori, Kathmandu, Nepal

Junior Frontend Developer | Mar 2024 - Feb 2025

- Developed 3+ dynamic web applications using Next.js, TypeScript, and GraphQL, improving client engagement.
- Implemented state management (Redux/Zustand) and data fetching (TanStack Query) to optimize performance and make pages load noticeably faster.
- Collaborated with designers and backend teams to integrate RESTful APIs, ensuring seamless data flow.

SS STORE & SUPPLIERS | Bardibas, Mahottari, Nepal

Frontend Developer (Contract) | Oct 2023 - Feb 2024

- Built the e-commerce platform for ssstoreandsuppliers.com with React.js and GSAP; the new online presence, backed by technical, on-page, and off-page SEO, helped the business reach more customers and attract more sales.
- Designed responsive UI components and integrated third-party libraries to streamline checkout workflows.

MAA KALI HARDWARE | Bhaktapur, Nepal

Full-Stack Developer (Contract) | 2022

Architected a full-stack online store (nationalhomedecor.com.np) using Next.js, Node.js, and TypeScript, with cart, eSewa payments, a blog, and an admin panel, built for fast server responses.

Used GSAP for interactive animations that kept visitors engaged and browsing longer.

HOTEL ROYAL SEN | Bardibas, Mahottari, Nepal

Frontend Developer (Contract) | 2022

Created a mobile-first hotel booking site with SASS and JavaScript, making it easy for guests to book from their phones.

PROJECTS

EMS (Employee Management System) | Next.js, TypeScript, MongoDB, AWS S3 | Sep 2026 - Present | Live | GitHub

Designed and built an all-in-one business system covering employees, field jobs, products and stock, and accounting, with a separate workspace and public website for each business.

Added geofenced check-ins (staff can only check in near the job site), an offline check-in queue, and unit-tested accounting for ledgers, day book, and estimates.

Real-time Chat App | React.js, Firebase | GitHub

Developed a real-time messaging app with live conversations, an emoji picker, image sharing, and in-app notifications.

EDUCATION

Bachelor of Information Technology (B.IT) | University of Sunderland, taught at ISMT College, Tinkune, Kathmandu | 2019 - 2023

CERTIFICATIONS & ADDITIONAL INFORMATION

Certifications: The Complete JavaScript Course (Udemy, 2023) | Responsive Web Design (freeCodeCamp, 2023) | JavaScript Algorithms & Data Structures (freeCodeCamp, 2024)
